	Requirement	MoSCoW Priorit	User and Stakeh	Feasibility	Justification
1	Search books by	Must-Have	High	High	Essential for finding books efficiently; straightforward database search functionality.
2	Online book rese	Must-Have	High	Medium-High	Enables remote reservations and improves access; a basic reservation workflow is feasible.
3	Monthly reports	Must-Have	High	High	Supports administration and decision-making; reports can use existing borrowing records.
4	Email notificatior	Must-Have	High	Medium-High	Encourages timely returns and reduces manual follow-up; requires email integration and scheduled reminders.
5	QR code scanni	Should-Have	Medium-High	Medium	Speeds up circulation but requires scanning support and additional integration.
6	User-friendly das	Must-Have	High	High	Supports daily library operations; a basic dashboard is achievable within the initial project scope.
7	Book reviews an	Could-Have	Medium	High	Improves discovery and engagement but is not necessary for core borrowing operations.
8	Chatbot for user	Could-Have	Medium	Medium-Low	Automates common queries but adds development, testing, and possible AI service costs.
9	Mobile app versi	Should-Have	High	Medium-Low	Improves mobile access but separate app development increases time and budget; a responsive website can be an interim solution.
10	Multi-language s	Should-Have	Medium-High	Medium	Expands accessibility but requires translations, interface adaptation, and language testing.
